		<b>April Totals</b>	<b>10</b>	<b>0</b>	<b>-</b>	<b>12</b>
		<b>Transports w/ Lurie Children's Transport Team</b>			<b>1</b>	<b>-</b>

Helicopter transport of a patient or organ involves an incoming flight to Lurie Children's with the child or organ on board, and a departing flight from the hospital after the child or organ is delivered. In some cases, it is essential to have Lurie Children's pediatric medical transport team escort the patient from the remote hospital to Lurie Children's. In these cases, the helicopter picks up the medical transport team from Lurie Children's and then flies to the referring hospital to begin care for the child while in route back to Lurie Children's.
