	Rush Copley Medical Center-Aurora	Maple Syrup Urine Disease	1	0	No	1
		July Totals	9	0		14
		Transports w/Lurie Children's Transport Team			Yes	

Helicopter transport of a patient or organ involves an incoming flight to Lurie Children's with the child or organ on board, and a departing flight from the hospital after the child or organ is delivered. In some cases, it is essential to have Lurie Children's pediatric medical transport team escort the patient from the remote hospital to Lurie Children's. In these cases, the helicopter picks up the medical transport team from Lurie Children's and then flies to the referring hospital to begin care for the child while in route back to Lurie Children's.

Lurie Children's Helicopter Transport Usage Historical Data					
	Total Patient/ Organ Transports	Lurie Children's Transport Team Needed	% of transports w/team	Total Flights (Landings)	% of Flights 8a-9p
2012 Totals	30	9	33%	31	71%
2013 Totals	39	15	38%	45	78%
2014 Totals	18	10	56%	26	69%
2015 Totals	31	18	58%	42	60%
2016 Totals	44	21	48%	51	53%
2017 Totals	44	19	41%	54	74%
2018 Totals	93	40	40%	109	66%
January 2019	1	1	100%	1	100%
February 2019	5	2	40%	6	83%
March 2019	10	4	40%	13	71%
April 2019	6	4	66%	8	88%
May 2019	11	3	27%	12	75%
June 2019	7	2	29%	9	56%
July 2019	9	5	50%	14	64%

*Team was used to assess patient: Patient was too unstable to transport, unable to transition to ventilator, all possible interventions exhausted.
