

**Ann & Robert H. Lurie Children's Hospital of Chicago
Monthly Community Heliport Usage Report
July 2013**

Date	Point of Departure	Diagnosis	Patients Transported	Organs Transported	Lurie Children's Transport Team Needed	Flights
Jul-13	Centegra Memorial/Woodstock	Trauma/Head Seizures	1	0	No	1
	Centegra/McHenry (N.I.L. Med.Ctr.)	Brain Tumor/Seizures	1	0	No	1
	Vista East	Cardiac Arrest	1	0	Yes	1
	Silver Cross	Cardiac Arrest/Prematurity	1	0	No	1
	Valley West	Respiratory Failure/Asthma Exacerbation	1	0	Yes	1
		July Totals	5	0	0	5
		% of Patient Transports with Lurie Children's Transport Team			40%	

Any transport of a patient or organ involves an incoming flight to Lurie Children's with the child or organ on board, and a departing flight from the hospital after the child or organ is delivered. In some cases, it is essential to have Lurie Children's pediatric medical transport team escort the patient from the remote hospital to Lurie Children's. In these cases, the helicopter picks up the medical transport team from Lurie Children's and then flies to the referring hospital to begin care for the child while en route back to Lurie Children's. **During July 2013, five children and no organs were transported to Lurie Children's. Two transports required Lurie Children's Transport Team, and for both, the team drove to the patient and returned by helicopter.**
