Any transport of a patient or organ involves an incoming flight to Lurie Children's with the child or organ on board, and a departing flight from the hospital after the child or organ is delivered. In some cases, it is essential to have Lurie Children's pediatric medical transport team escort the patient from the remote hospital to Lurie Children's. In these cases, the helicopter picks up the medical transport team from Lurie Children's and then flies to the referring hospital to begin care for the child while en route back to Lurie Children's. **During July 2014, two helicopter transports of a patient which landed at Lurie Children's required the Lurie Children's Transport Team. For one of these transports, the Lurie Children's team drove to the patient and returned to Lurie Children's by helicopter.**
