May 2017**

Date	Point of Departure	Diagnosis	Patients Transported	Organs Transported	Lurie Children's Transport Team	Flights
May – 17	Centegra/McHenry	Toxic Ingestion	1	0	No	1
	Rockford Memorial/Mercy Health	GBS Meningitis	1	0	No	1
	Grayslake Emergency Center	Trauma/Head	1	0	No	1
	Silver Cross	s/p Arrest, r/o NAT	1	0	No	1
		May Totals	4	0	0%	4
		Transports w/Lurie Children's Transport Team			0%	

Helicopter transport of a patient or organ involves an incoming flight to Lurie Children's with the child or organ on board, and a departing flight from the hospital after the child or organ is delivered. In some cases, it is essential to have Lurie Children's pediatric medical transport team escort the patient from the remote hospital to Lurie Children's. In these cases, the helicopter picks up the medical transport team from Lurie Children's and then flies to the referring hospital to begin care for the child while en route back to Lurie Children's.
