Library resources: EndNote and beyond

SMCRI Neighborhood and Institute Learning Session

July 2, 2020

Peggy Murphy, MILS Librarian and Communications Specialist

“Book Stack” outside of Everett Public Library
Objectives

• Provide an introduction to Stanley Manne Children’s Research Institute Pritzker Library and Lurie Children’s Health Sciences Library resources & services

• Provide tips and tricks on the Galter Health Sciences Library online catalog for literature/article searches

• Provide an overview of EndNote, a bibliographic management software
Resources on campus and remotely

- **Pritzker Research Library** – website
- **Health Sciences Library** – Lurie Children’s intranet
- **Galter Health Sciences Library & Learning Center**

- All are available for: consultation, training, access to resources, literature searching and more
- All license and/or have access to many online resources
- In many circumstances, if you contact Galter Library you will be referred to Pritzker or Health Sciences librarians
How to start...

Visit the Galter Health Sciences Library at

https://galter.northwestern.edu
How to find...

3. Advances in neonatal care (Online)

Advances in neonatal care (Online)
Philadelphia : Wolters Kluwer Health/Lippincott Williams & Wilkins 2001

Online Access Details Request

Journals@Ovid
Access restricted to Northwestern University and Lurie Children’s Hospital.

In first example, one choice – Lurie Children’s has access

7. Pediatric infectious disease journal (Online)

Pediatric infectious disease journal (Online)
Place of publication not identified : Lippincott, Williams & Wilkins 1987

Online Access Details Request

Journals@Ovid
Access restricted to Northwestern University and Lurie Children’s Hospital.

Ovid Lippincott Williams & Wilkins Journal Definitive Archive
Access restricted to the Northwestern University community.

In second example, two choices – select Lurie Children’s access (note: if you are NU faculty, staff or student, selecting NU or Lurie should work)
How to find...

Digging deeper

First option: NU
Second option: Lurie
Children’s is an “affiliated hospital”
Note that access only includes 2001 to 2016
What if this happens?

Tiny print says: “No NetID? Attempt to access this resource without signing in”
A few notes on access

• If you have a NetID, sign into Galter and check the box that says “Remember me for four weeks”
• If you don’t have a NetID, click here
• If the resource note says “Access restricted to Lurie Children’s, go to AllConnect
If you can’t get the items you need?

• Visit the Galter Health Sciences Library
• Send an email to Peggy
  – Will try to access
  – Will order items at your request

“Judy’s Hand” by Tony Tasset
EndNote: installation

- NU faculty, staff and students can install EN through **NUIT**
- Lurie Children’s staff can contact IM to have EN installed – use the My Helpdesk link to submit a ticket
EndNote: starting a new library

• First things first! Remember to format your library before inputting references
• Go to Tools -> Open Term Lists -> Journals Term List
• OK to import more than one, but needs to be done one at a time
• This step will ensure that your references will be formatted correctly
EndNote: inputting references

• There are three ways to input references:

1. Manual – this is the least preferred method. Only use when you cannot find the reference online.

2. Search online databases within EN – ok to use for known references, when you just need a few, etc.

3. Search online databases directly – best choice, especially for searches that will retrieve lots of references.
EndNote: inserting references

• You can insert a reference by selecting it in EN and using the EN menu in Word
• Other options for inserting references such as drag-and-drop
• The manuscript can be reformatted using any style
EndNote: training and help

- Galter Library is a wonderful resource for EN training. Take a class or review their very thorough LibGuides
  - EN for Mac
  - EN for Windows
  - FAQs
- Peggy can train you or your team at any time
- The EndNote website contains lots of training and troubleshooting resources
- If you are experiencing technical difficulties, the EN team can help – check out their FAQs or ask a question.
Library locations

• Health Sciences Library
  – 225 E. Chicago Ave., 11th floor

• Pritzker Library
  – 303 E. Superior St., 10th floor

• Galter Library
  – 303 E. Chicago Ave.
Suggested resources

• PubMed – over 29 million citations
  Biomedical, life sciences, psychiatry, psychology, etc.
• Scopus – almost as big as Google, but smarter
• Many more – request by topic

“Open Book Memorial Stone”
by Jon Barlow Hudson
Search tips

• Breaking down the question into topics
• Keyword searches versus controlled vocabulary

• What keywords should you use? Variations?
  10,000 results??
• Limits on searches – time period, age, etc.
• How do you know if you did a “good” search?

Does such a thing even exist?
I’m here to help!

If you need any assistance or additional training, please contact Peggy!
