

Lurie Children's Outpatient Center in Westchester

Surgical Treatment Center

The quality and expertise of the surgical care you receive at Ann & Robert H. Lurie Children's Hospital of Chicago is also available at Lurie Children's Outpatient Center in Westchester, conveniently located in Chicago's near west suburbs with easy highway access. This surgical treatment center offers an alternative location to Chicago for outpatient procedures and surgery. The same Lurie Children's surgeons, physicians, dentists and anesthesiologists that practice at the main hospital in Chicago provide care at this convenient suburban location.

Services provided include:

- Dental procedures
- Dermatology laser treatments and excisions
- Ear, nose and throat surgery
- Eye surgery
- Gastrointestinal procedures
- General surgery
- Orthopaedic procedures
- Plastic surgery
- Urologic surgery

Our Location

This optimal site in Westchester makes expert care convenient whether coming from Chicago, a suburban location or out-of-state. The facility is close to Brookfield Zoo and the Oakbrook Center Shopping Mall. This location offers a less congested setting with free parking on-site. Accessible parking allows comfortable accommodations to all patients, especially those with special mobility needs. Overnight lodging is available at the adjacent Hampton Inn with a preferred rate available to families.

Our Team

The team follows the same standards and operating policies/practices at the main hospital in Chicago. The facility is also licensed as an ambulatory surgical treatment center and complies with all operating requirements of the State of Illinois and the Federal Government. We feature Magnet certified nursing staff each with a combined average of twenty years of pediatric outpatient surgical experience. The nursing staff includes nationally certified operating room and perianesthesia care nurses as well as numerous award winning team members. The expert nursing staff is adept at providing a positive experience for your child, by incorporating physical and developmental needs into the care delivered. A child life specialist is also part of the care team to assist your child in understanding and coping with the surgical or procedure process.

Appointments

Surgery is easy to schedule at this location and follow-up surgical or procedural care may also be scheduled here or at another outpatient center location. Medical imaging and lab services are provided here and at other satellite locations, making it easier for families to coordinate the ancillary components of their child's care.

"The doctors, nurses and care at your facility were wonderful. I was impressed by the professionalism and care and very happy with the results. Thank you."

NRC survey parent comment

"The staff at the Westchester location should be commended for their professional demeanor and their caring and compassion for their patients and patient's families"

NRC survey parent comment

"The staff was exceptional and they created a child focus environment that allowed us to feel confident our son was in great hands. The nurses were awesome and went above and beyond our expectations. Our doctor and anesthesiologist exceeded our expectations as they were also child focused and comforting."

NRC survey parent comment

"Parents often state that their child's surgical procedure was surprisingly full of ease from the accessibility of our facility to the child's nurturing care from the doctors and nurses who are so experienced with working with children exclusively." *Westchester RN*

"One of the things I like the most about Westchester is the environment is more intimate and less "hospital" like allowing for a more comfortable relationship between the patient, family and nursing staff." *Westchester RN*
