

LCAS Community Hub - Youth Meeting Worksheet Response Summary

This worksheet is designed to help you think through your design needs, healthcare perceptions, and ultimately help us truly create a space that isn't just designed FOR you, but designed WITH you.

Please be thoughtful and honest in your responses.

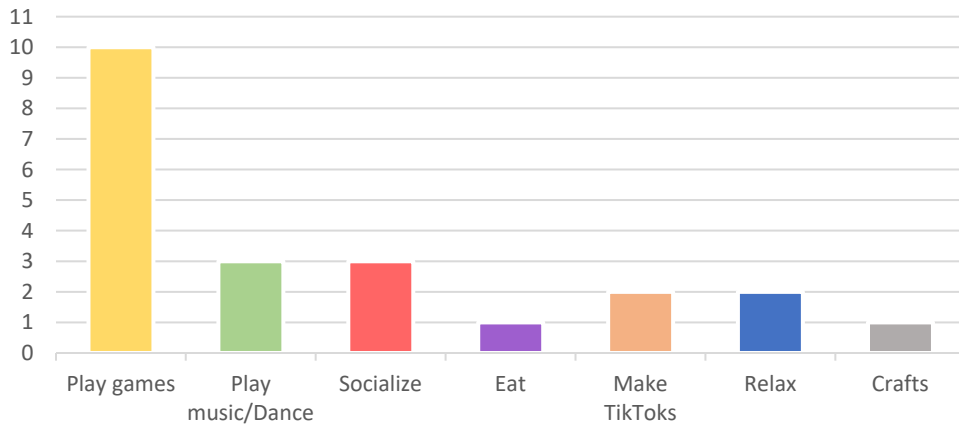

1. Think about the last time you visited a hospital or doctor's office... **how did it make you feel?**

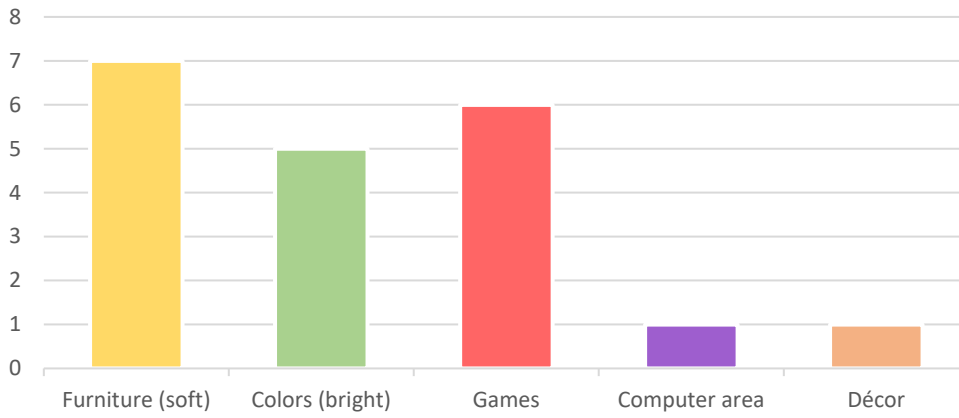

2. What about the hospital or doctor's office **stood out the most** to you? (Good or bad)

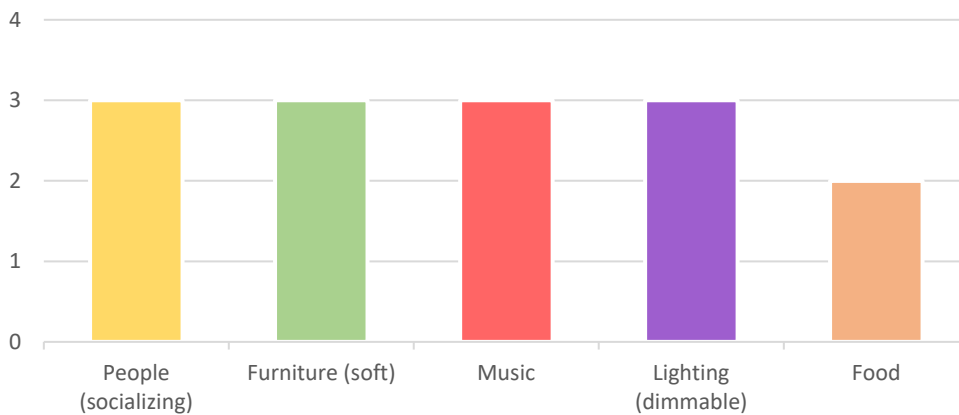

3. What **type of activities** would you like to be able to do in a teen lounge?

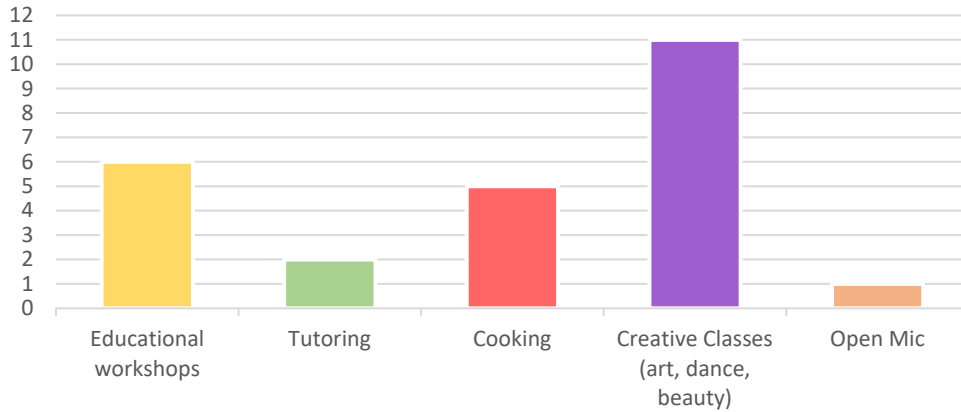

4. What items would make you feel like a space was **designed with youth in mind**?

5. What types of things would make you **feel calm and safe in the space**?

6. List the types of youth programs or events you would like to happen in the space.

7. Are there any places you've been to that could be examples for designing this space? If so, include below.
