

Financial Assistance Plain Language Summary

In keeping with its mission, the Ann & Robert H. Lurie Children's Hospital of Chicago is dedicated to making healthcare services accessible to our pediatric population. The Hospital acknowledges the financial needs of patients and families who are unable to afford the charges associated with the cost of medical care. In that regard, the Hospital when needed provides medically necessary healthcare services at a discount to children who reside in Illinois.

To manage its resources and responsibilities and to allow the Hospital to provide assistance to the greatest number of children in need, the Board of Trustees has established these guidelines for providing Financial Assistance.

Eligibility and Assistance Offered

In order to be eligible for free care or care at a reduced rate, the patient and/or family must apply by completing a short questionnaire. Families applying for Financial Assistance will not be denied based upon race, color, religion, sex, age, national origin, or marital status. The decision to provide Financial Assistance will be based on a review of the family's income, assets and liabilities. Additional information may be requested and ultimately may affect the Hospital's decision.

The necessity for medical treatment of any patient will be based on the clinical judgment of the healthcare provider without regard to the financial status of the patient and/or parent. All patients will be treated for emergency medical conditions without discrimination and regardless of their eligibility for free or discounted care. Patients and/or families must provide supporting documentation of Illinois residency. Children residing outside of Illinois or who reside in a foreign country are not eligible for Financial Assistance. This policy shall apply regardless of the patient's immigration status.

Patients and families wishing to apply may submit an application and supporting documentation to the Patient Services office. The Financial Assistance application may be found on the Hospital's web site.
